

## CSC Awards

Since 2000 Polaris has sponsored the Clean Snow Challenge held every spring. On top of donating parts and technical advise to teams, Polaris is in charge of the handling and acceleration events. We also support the endurance run and sound course with vehicles and riders. Students are faced with the same challenges we deal with on a daily basis and Polaris rewards those who are able to find innovative solutions. At each competition Polaris gives out an award for the top performers in handling (objective and subjective) and acceleration.
